"FOUR ACRE PARK AT POINT OFFERED FREE TO CITY BY JAMES FORMAN "

"James Forman of San Francisco through the city Planning Commission has tendered four acres in Marine View Terrace, to be improved for party and recreation purposes. This property is ideally located for the purpose, and affords a wonderful view of the Bay Region. It will be Richmond's First City Park.

> The park site will be worked into the city plan to be prepared by Dr. Carol Armovici, newly appointed city planning expert, it is expected.

> > "Mr. Forman has also authorized A. C. Powers to clean up all the unsold lots in Marine View Terrace at prices from 50 to 75% less than the lots have

heretofore sold for. It seems incredible that lots can be picked up in Marine View Terrace as low as Fifty dollars. "

## A REPRIEVE?

The East Brothers Light House comes back into focus this week, with a state-ment from city Recreation and Parks Director, Tom Wilson, who informed us that the Light House is "as good as saved"!

The National Historic Preservation Act of 1966 authorized the Secretary of Interior to expand a program for the preservation of historic properties. Mr. Wilson's office contacted the liason offi= cer for the State of California, and succeeded in having the East Brothers Lighthouse placed on their list of historic sites to be saved. It is now more a matter of When", than "if" the lighthouse will be kept from demolition, and since in the correspondence with the Coast Guard headquarters, the commandant's office has consistently promised to confer with the Secretary of Interior before taking any action to demolish the buildings, it is very likely that the buildings will be saved!

Senator George Miller, Jr. is battling valiantly to pass the Bay Conservation Bill, S.B. 231, which will, if passed, continue the power of the Bay Conservation and Development Commission until a Regional control can be established to keep the bay from being indiscriminate, ly filled. Naturally, there are several lobbyists fighting the bill, since there are many industries waiting to fill the Bay. Therefore, public pressure is also needed, to counteract the interests which, collectively, could fill enough of the Bay to reduce it to a river. Send a wire, or a letter to Senator Miller, or to the chairman of the Governmental Efficiency Committee, Senator Richard J. Dolwig, State Capitol, Sacramento, Cal. stating your support for the bill and the control it will maintain.

## Spaghetti

Looking for an inexpensive night out of the kitchen? The Richmond Exchange Club sponsors an annual Spaghetti dinner at the Richmond Auditorium as a benefit for the Camp Fire Girls who hope to soon be able to build a dining hall at their resident Camp Seabow a Layton-ville.

Contact any Bluebird or Camp Fire Girl for tickets, which are only 75 cents. (Children under five free). Or--call 234-5334 to find out who your nearest Camp Fire member may be.

Remember -- Thursday, May 2 is a night out -- no planning, no dishes, no clean-up // And, a worthy cause.

### WEST SIDE litities

The ladies of the West Side Improvement Club have been meeting every Thur sday, again preparing for their annual Fall Bazaar. Hand crafted items are already in preparation for the yearly event, which promises to be bigger and to offer an even greater variety of items for sale than before.

The next official meeting of the group will be May 2, at which time, the nominating committee will give its report. They will meet, as usual, in the Community Center at noon.

#### APARTY TOWORK

Saturday work parties are becoming a happy tradition, and bringing exciting results, at the Methodist Church.

Volunteers (this is an ecumenical movement!) are always welcomed. This Saturday there'll be a variety of projects underway.

Heavy emphasis by the men and strong boys will be on digging trenches in the basement. The women and girls will be concentrating on cleaning the kitchen, and generally preparing for their "Fleur Tea" on Wednesday. Come one, come all. Everyone is welcome.
